

# Playground Schedule

## Summer 2021

- Adequate playground supervision is imperative for the safety of the children. Be sure that a teacher stands in **each** of the playground areas when children are present.
- Remember to **circulate** frequently.
- All chase games should be played on the ground, not the equipment. Please monitor the children for proper use of all equipment and proper placement when cleaning up!
- Bikes may be retrieved **only** with teacher supervision.
- Only Outdoor equipment is to be used on the playground.
- Do not hit, throw, or kick balls on the playground near the windows. You are to use the field for these activities.
- Children **must** remain off the walls, fences, and porch area during play.
- The fountain may **NOT be used during COVID**
- **Teachers** are responsible for ensuring the replacement and cleaning of **all** equipment before re-entering the building.

**During days when the heat is extreme, shorten your playground times. Please ensure that your children consume plenty of water and are not in danger of becoming too hot! Be informed about the weather and use the gym on days when ozone levels are high or the heat is too intense. [Be sure to pay attention to posted cautionary signs!](#)**
